SmartbAmit

Hello Team,

For 2023 batch, we need to conduct an offline assessment exam next week, for a duration of 3 hours.

Kindly let us know a feasible date and time.

10:03 am

Right, please see that it's done in an offline mode in college premises (labs)

We have scheduled the assessment in an offline mode as suggested by you from 10AM to 1PM on Saturday.

4:38 am

Assessment Link: It will be shared at 9:30AM on Saturday [07/10/2021](#)

Date: 9th October, Saturday

Time: 10AM-1PM

Venue: College Labs

Level: Easy-Medium

Number of Problems: 8

The contest link must be shared with the students only in the labs, 15 minutes prior to the contest start time by the invigilators.

Instructions for invigilation

1. Please have multiple faculty members assigned to ensure strict monitoring during the test. There should be at least 1 faculty member for every 15-20 students.
2. No use of gmail, phone, whatsapp, facebook etc. The students should not access any website apart from HackerRank.
3. The invigilators should even monitor students to refrain from peeking at the adjacent screens and stop plagiarism of any kind. Please advise the invigilators to keep a close eye on their screens as well.
4. The students tend to cheat more towards the last hour of the exam. Please give clear instructions to the invigilators to avoid any copy-cases so that we can get the best and genuine students after the filtering test.
5. Anyone caught in any malpractices, should be removed immediately from the lab. It should serve as an example for other students. (RollNumbers should be noted down)
6. The students are only allowed to bring pens and water bottles. Rough A4 sheets should be provided by the administration.
7. Strict monitoring must be ensured throughout the 3 hours. No student should leave the lab until the assessment is over.

Understand that we are ecc students and have zero touch on data structures and algorithms so please reduce the work load as we are simply copying the problems. Thus they need to teach us and we will do all the problems that have been taught in the class. Requesting them not to put so much mental pressure on us as we have to balance a lot of things.
